

Athabasca University
ARUCC List Serve Survey on Joint Transcripts

Institution	Do you have a joint transcript?		Are both required for eval purposes or would you accept single?	
	Yes/No	Info Included/Comment	Both Required?	Other Comments
Ontario Universities Application Centre	n/a	n/a	Yes	
Alberta College of Art & Design	No	n/a	No	Would accept single Transcript
Olds College	n/a	n/a	n/a	Had a shared parchment with a partner at one time
Lakehead University	No	n/a	No	Relying on another institutions interpretation of a different institution's transcript does not inspire confidence in the system and integrity of the process. When dealing with students' records of past academic work, we would no longer be able to gauge when we had received the correct transcripts and when we should still be holding the file waiting for additional information. Students would send a joint transcript but not the originals that we had requested and confusion would ensue
University of Calgary	No	n/a	Yes	While we recognize collaborative partners on the transcript, but the transcript itself is our sole responsibility. In terms of receipt, in a normal situation we would probably request a transcript from both institutions. If you do end up with a special case, depending on who the other instruction was we may be able to negotiate a unique arrangement.
Ryerson University	Yes	we have a joint program with York University, but all courses have both a Ryerson and a York number, so all courses on our transcript have Ryerson numbers, whether or not they are taken at York or Ryerson. The same is true of the York transcript.	Yes & No	If we were reviewing an Athabasca transcript, we would likely accept all courses on it that had a grade. If they appeared as "credit", then I would want the original transcript with the grade.

	Yes/No	Info Included/Comment	Both Required?	Other Comments
University of British Columbia	No	n/a	n/a	UBC and BCIT collaborate in the offering of a joint Honours BSc degree. Transcribing has been a challenge and thus far we have each produced a separate transcript which cross references the work the students take at the other institution. We didn't consider a joint transcript. This option would seem to involve quite a bit of overhead (design, acceptance etc.) and still leaves you with the challenge of getting the courses and grades etc. consolidated from two separate and distinct SIS's
Queen's University	No	n/a	n/a	n/a
Nipissing University	n/a	n/a	Yes	As the receiver of transcripts I would want to see transcripts from the institution that is responsible for the granting of these credits regardless of where they are offered.
Southern Alberta Institute of Technology	No	n/a	Yes	n/a
Ontario College of Art & Design	No	We do not have a joint transcript yet - but we are in the process of developing a collaborative program. I imagine these questions will soon come up.	No	If the courses and grades of both institutions are detailed on the transcript, I think the one joint transcript would be sufficient for admission and transfer of credit purposes. We would require full course outlines for transfer of credit assessments.
McMaster University	No	n/a	Yes	n/a

University of Alberta	n/a	An inherent problem with a resulting Joint Transcript is that the courses may be appear on the institution transcript however do not appear in their calendar if offered an another site. We may need to reference course descriptions we would need the courses to be articulated on the transcript as to where they can be found. There is also the academic assessment, comments and the grades that are of a concern if they there is any conversion that happens between the two institutions.	Yes
